

God's Providence

Foot Prints in the Sand of Life

- *God looks after us at all times*
- *In the hardest moments his is even closer to us*
- *Place yourself in the Hands of God's providence... .*

One night in my sleep I dreamt
Upon the beach I walked.
The Lord was at my side each step I took
As quietly we walked,
Then on the sky my life appeared
Each chapter was screened
Two sets of prints in the sand
I saw in every scene
And at the end I noticed
That in the worst times of my life
There was just a single set of foot-prints
I remarked: "Lord you said you'd walk by me
In good times and in bad,
Why then, weren't you there with me
When you knew my life was sad?"
My dearest child, "God whispered
When you suffered most, I carried you
The single pair of footprints was mine",
