

THE LAWS OF NATURE - THE SEED

(Adapted from a script of an unknown authorship)

Perseverance is wanted to succeed

Don't get discouraged. Keep trying.

We have to do mighty much to accomplish mighty little.

Look at an apple tree. There might be five hundred apples on the tree, each with ten seeds. That's a lot of seeds. We might ask, "Why would you need so many seeds to grow just a few more trees?"

Nature is telling us: "Most seeds never grow. So if you really want to make something happen, better try many more times than one"

- You might have to attend twenty interviews to get one job.
- You might have to interview forty people to find one good employee.
- You might have talk to fifty people to sell one house, a car, or an insurance policy,
- You might have meet a hundred acquaintances to find one special friend

When we understand the 'Law of the Seed', we won't get disappointed and stop feeling frustrated in life. Laws of nature are not things to take or to leave. They are not optional We have to accept them and work with and through them.
